

# Access Gillette Corner

## Local Residents Newsletter No.1

**18th May 2020**

Dear Residents,

We hope this letter finds you well and that you are keeping safe during these difficult times.

Harmonix Construction are the appointed contractor for the design and construction of the new Access Self Storage and Serviced Offices development at Gillette Corner.

This first newsletter is predominantly to introduce ourselves, provide you with contact details and inform you of the works that will take place over the first 2 months of the construction process. We will issue further letters to update you periodically as the activities on site change or when there is a significant event you should be aware of.

Our Site Manager for the project is Arturs Ramma, who was our site manager on the new Abellio Bus Depot in Armstrong Way that we completed last year, near Matalan at the Uxbridge Road end of Syon Lane / Windmill Lane. Arturs' mobile number is 07984 498 126.

During the next 2 months we will be carrying out the following activities:

- Establishing our full site set-up
- Clearing the vegetation which has built up around the perimeter of the site
- Reducing the levels of the site so they are in line with the new singular access off Northumberland Avenue
- Install piles for the new foundations
- Commence foundations and retaining walls to the perimeter of the site

All of the above works will be completed within the existing site hoarding so will not be visible externally, but there will be lorries delivering to site and removing excavated materials. This will all be via the existing Northumberland Avenue site entrance. We will do our best working closely with our subcontractors and suppliers to cause the least possible disruption to you from these activities and apologise in advance for any inconvenience this may cause you.

If you have any questions or concerns, please contact Arturs who will be happy to discuss them with you.

Best Regards,

Arturs Ramma
